SUMMARY

B.Sc. Computer Science graduate (2025) with hands-on experience in Frontend Development and modern web technologies. Proficient in Python, Django REST Framework, React.js, and SQL databases, with expertise in leveraging AI-assisted coding tools (Cursor, Claude, OpenAI Codex) for efficient application development. Eager to apply my technical foundation and rapid learning capabilities to build modern, AI-powered software solutions.

PROFESSIONAL EXPERIENCE

Software Developer

Intern - Soruban Technology Private Limited

04/2026 – 06/2026
Coimbatore

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Used AI-assisted development tools including Claude, ChatGPT, Cursor, Copilot, Gemini, and OpenAI Codex to support coding and development workflows.
- Used Git and GitHub for version control and project collaboration.

Test Automation Engineer

Intern - Indium Software

06/2025 – 11/2025
Chennai

- Created and worked with test cases for web applications.
- Used Selenium WebDriver for QA automation testing.
- Performed accessibility testing based on WCAG guidelines.

SKILLS

Programming Languages

- Python, JavaScript (ES6+), HTML5, CSS3, SQL

Core Concepts

- Data Structures & Algorithms (DSA)

Frontend Development

- React.js, Bootstrap, Responsive Web Design

Backend & API Development

- RESTful APIs, Django Framework, Node.js (Core Concepts)

Cloud & DevOps

- AWS & Docker (Basics)

DataBases

- MySQL / Relational Databases

AI-Assisted Workflows

- Cursor IDE, Claude, OpenAI Codex, Prompt Engineering Basics

PROJECTS

SocialMediaDB – Social Media Database Design (SQL)

MySQL, SQL

- Designed a **normalized (3NF) relational database** with **5 tables** (Users, Posts, Comments, Likes, Followers) using **primary keys, foreign keys** and a **self-referencing followers relationship**
- Wrote **SQL queries** using **INNER, LEFT, RIGHT, CROSS** and **self joins**, plus **GROUP BY/HAVING** aggregations and **string/date functions** to analyze user activity
- Created **8 views** and **3 stored procedures** to simplify reporting and reuse common queries
- Implemented an **AFTER INSERT trigger** for user audit logging and tested **COMMIT, ROLLBACK** and **SAVEPOINT** transactions
- Applied **window functions** (**ROW_NUMBER, RANK, NTILE**), **CTEs** and **single/composite indexes** for ranking and faster lookups

NOSTRA – Fashion E-commerce Backend (REST API)

Python, Django, Django REST Framework, React 19, REST API, JWT, SQLite /

- Built a full-stack fashion e-commerce platform with a **Django REST Framework backend** and **React 19 frontend**, supporting customer shopping and admin management workflows.
- Implemented **JWT authentication**, product/category APIs, pagination, filtering, sorting, cart, wishlist, address management, checkout, order history, cancellation, and payment-attempt flows.
- Developed **stock-aware cart** and **checkout logic** with database transactions and row-level locking to prevent race conditions during inventory updates.
- Built an **admin panel** for dashboard, categories, products, variants/inventory, orders, customers, and payments.
- Optimized API performance using **select_related / prefetch_related** and ownership-based access control for user-specific resources.
- Wrote and maintained **407 automated backend tests** covering models, serializers, views, authentication, and API behavior.

EDUCATION

Master of Computer Applications (MCA) - ODL

Alagappa University

2025 – Present
Karaikudi

Bachelor of Science in Computer Science (B.Sc. CS)

Bishop Heber College

2022 – 2025
Tiruchirappalli

CERTIFICATES

Employability Skills Certification

Bishop Heber College

One Million Prompters Program

Dubai Future Foundation

Quality Engineering Internship

Indium Software

Accessibility Testing (WCAG)

Indium Software
